

March 2021

Construction in the courthouse annex building makes the Scott Street elevator unusable and the district's lobby doors to be closed causing access constraints. **UNLESS ABSOLUTELY NECESSARY, PLEASE DO NOT VISIT OUR OFFICE IN PERSON.** Most all business with the appraisal district can be conducted electronically utilizing our website, phones, and/or electronic communication. A temporary lobby is located in the back hallway but the number of visitors allowed in our office at any given time is greatly reduced.

We have been advised that this construction project will last at least through July, 2021

Covid-19 safety measures, including mask wearing and social distancing, are strongly recommended in our office.
